

You Are Invited

Ponderosa Park Community #RESIST Meeting

Wednesday, March 22nd 7:00 to 9:00pm at Ponderosa Park Building

On the corner of Iris Ave. & Henderson Ave.

We are your neighbors in the Ponderosa Park Area of Sunnyvale. We are VERY concerned about the anti-immigrant, anti-environment, and the anti-affordable health care proposals now pending in Washington. Fear, discrimination and the hate provoking language coming from the president and his administration will NOT make America great again.

America is great because of inclusion, compassion and innovation.

Our democracy is strong because of liberty and justice for all.

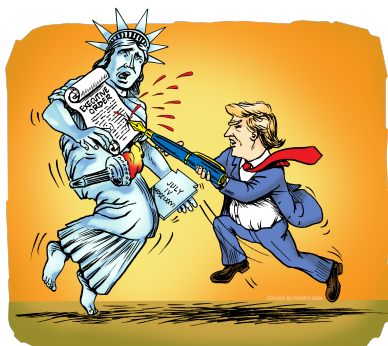

The purpose of this meeting is to share with you the resources that are available to help resist the Presidential Administration's and Congressional plans that will weaken America and our great democracy.

At this meeting, you will learn how to:

1. Stay informed about what is happening in Washington that will impact you, your family, and your friends; now and well into the future;
2. Influence your congressional representatives to ensure the President and our Congress pass laws and enact policies that benefit everyone; and how to,
3. Get involved so your voice is heard, our communities' needs are met, and the President and our Congress do the right things.

Please join us for an evening of interesting and important discussions that affect the future of our country. You will be amazed by the many neighbors who are as concerned as you about the wellbeing of our community and of our great nation.

Helen Keller wrote, "Alone we can do so little; together we can do so much."
